Community Living BC is the Crown agency responsible for providing support and services to people with developmental disabilities, children with special needs and their families in British Columbia. It has a board of self-advocates, family and community members, as well as staff located throughout the province. We believe that people with developmental disabilities and their families know best when it comes to their needs, goals and planning for the future.

We encourage members from the community to stop by and say hello and learn more about the work of CLBC and how everyone can make a difference in the life of an individual with a developmental disability.
